MARION TOWNSHIP

You are advised to review the Marion Township Rules and Regulations thoroughly before making a physical connection to the public water system. Water pressure from the Township system may differ significantly from the pressure previously existing in your system. YOUR ATTENTION IS DIRECTED TO THOSE PROVISIONS OF THE RULES AND REGULATIONS AND INSTALLATION DIAGRAM SUGGESTING THE INSTALLATION OF A WATER PRESSURE REDUCER VALVE. The Township in consideration of the connection fee will provide a meter and curb stop. The installation of a water pressure reducer valve is the applicant's responsibility.
